URL: <http://rafb.net/p/81b3zq30.html>

```
1  def show
2    @reservation = Reservation.find(params[:reservation_id])
3    @invoice = @reservation.invoice
4    @payment=Payment.new(:label => "Payment")
5    if @invoice.outstanding_balance>0
6      @payment.amount=@invoice.outstanding_balance
7    end
8    access_denied unless logged_in? or @invoice.access_token==params[:token]
9    if params[:token]
10     @outside=true
11     render :action => "show", :layout => "public"
12   else
13     render :action => "old_show"
14   end
15 end
```

The same code in Pastie

```
Theme: Sunburst (Josh)
1  def show
2    @reservation = Reservation.find(params[:reservation_id])
3    @invoice = @reservation.invoice
4    @payment=Payment.new(:label => "Payment")
5    if @invoice.outstanding_balance>0
6      @payment.amount=@invoice.outstanding_balance
7    end
8    access_denied unless logged_in? or @invoice.access_token==params[:token]
9    if params[:token]
10     @outside=true
11     render :action => "show", :layout => "public"
12   else
13     render :action => "old_show"
14   end
15 end
```

TextMate Integration

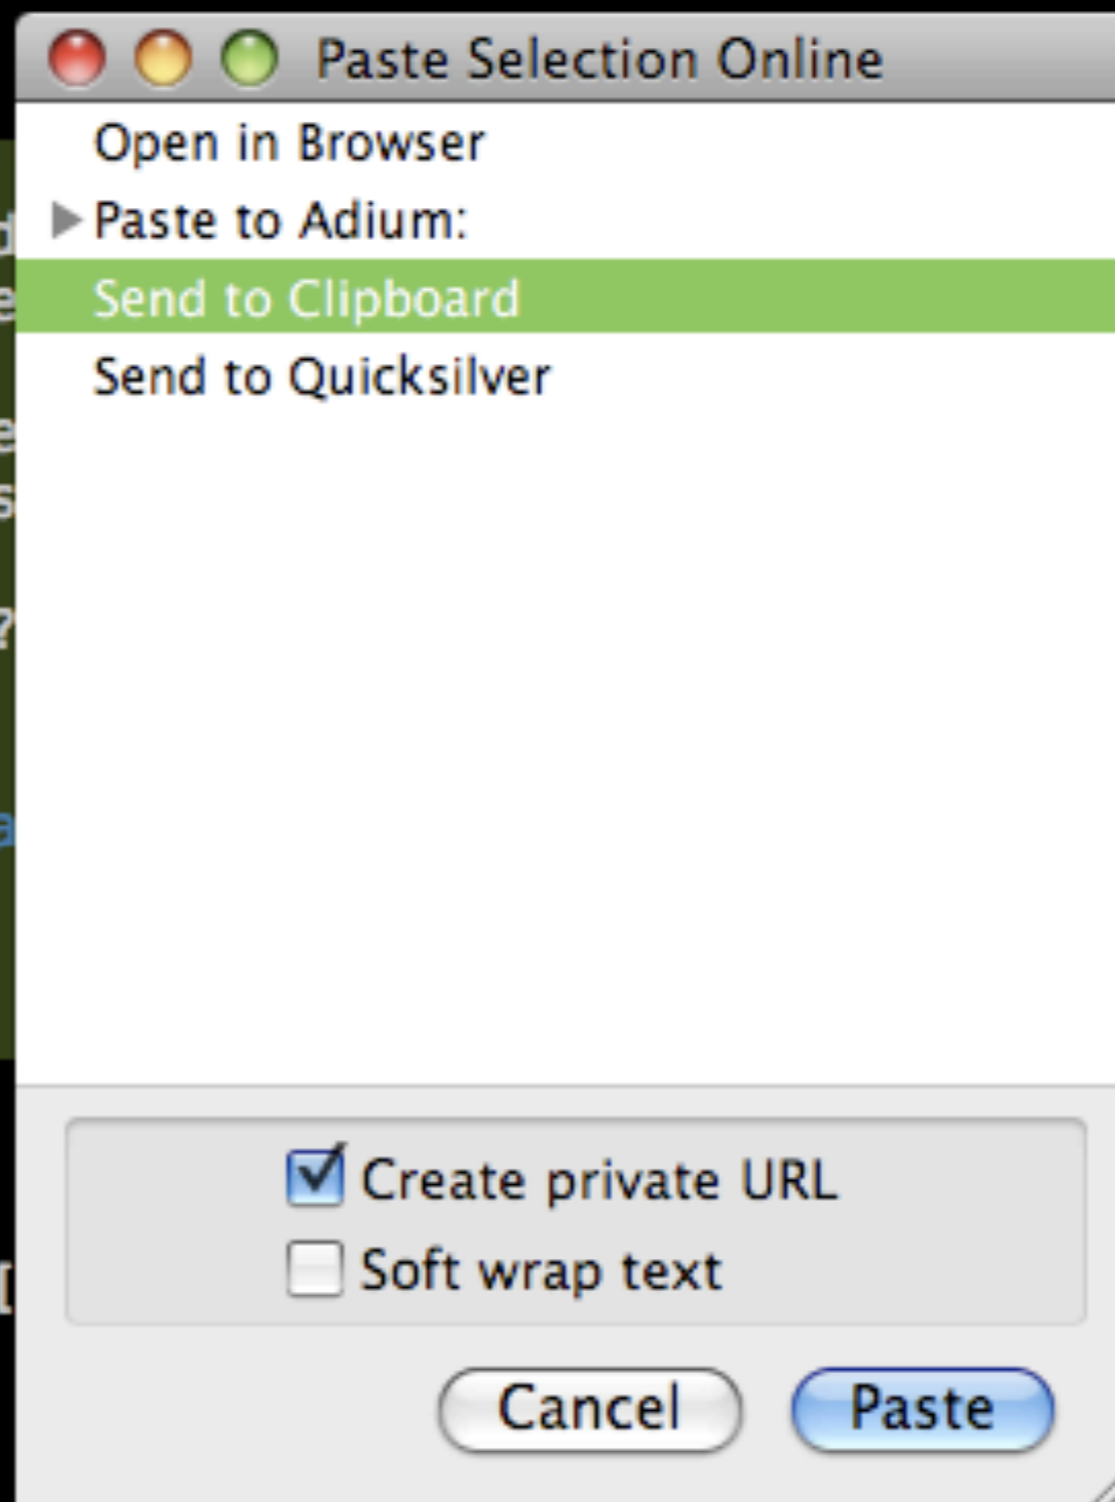

Thanks to Allan Odgaard and others!

```
def index
  @invoices = Invoice.find(:all)
end

def show
  @reservation = Reservation.find(params[:id])
  @invoice = @reservation.invoice
  @payment=Payment.new(:label => @reservation.label)
  if @invoice.outstanding_balance
    @payment.amount=@invoice.outstanding_balance
  end
  access_denied unless logged_in?
  if params[:token]
    @outside=true
    render :action => "show", :layout => "outside"
  else
    render :action => "old_show"
  end
end

def edit
  @invoice = Invoice.find(params[:id])
end

def update
  @invoice = Invoice.find(params[:id])
```

Vim Integration

Vim plugin by Tim Pope (tjpope on IRC)

Just google “pastie vim”

Inside Vim

```
class PostsController < ApplicationController
  # GET /posts
  # GET /posts.xml
  def index
    @posts = Post.find(:all)
  end
end
```

```
~
~
```

```
[1] app/controllers/posts_controller.rb [ruby] 7,1-1 ALL
```

```
<h1>My wondering weblog</h1>
```

```
<%= render :partial => 'post', :collection => @posts %>
```

```
<br />
```

```
<%= link_to 'New post', new_post_path %>
```

```
~
~
~
```

```
[2] app/views/posts/index.html.erb [eruby] 1,1-1 ALL
```

```
:Pastie
```

```
2 a/v/p/index.html.erb + h//p/p/ X
```

```
## app/controllers/posts_controller.rb [ruby_on_rails]
class PostsController < ApplicationController
  # GET /posts
  # GET /posts.xml
  def index
    @posts = Post.find(:all)
  end
end
```

Inside Vim

```
## app/views/posts/index.html.erb [html_rails]
```

```
<h1>My wondering weblog</h1>
```

```
<%= render :partial => 'post', :collection => @posts %>
```

```

How it works

Pastie listens to everything in a channel.

- Dreamer3: DHH: could you pastie me that?
- Dreamer3: bob: could you pastie that to me right away?
- Dreamer3: tpope: could you pastie us an example?

The key is to address someone (eg: “tpope:”) and mention “pastie me|us|that”. The person you address will receive a private message with a URL letting them know you’d like a paste from them.

Booger or Burger?

(protecting Pastie from spammers)

```
<%= hidden_field_tag 'paste[authorization]', "booger",  
  :id => "paste_authorization" %>
```

```
<% if @paste.new_record? %>
```

```
<%= javascript_tag "$('paste_authorization').value='burger';" %>
```

```
<% end %>
```

Poetry - #202,776

This Is My Life

I spent my days in vain just waiting
For happiness to come my way
I took for granted all they gave me
I opened my eyes
Finally I realised

This is my life
I don't wanna change a thing
This is my life
All the pain, all the joy it brings. ...

Apology - #201,980

Hey Kate,

Remember that time in highschool when you were like 200 lbs and sometimes you'd find random things hidden in your rolls of fat?

I have to confess, that was me.

Sometimes it was pens, other times cookies & even cheese.

Just wanted to say sorry about that. ...

Bad Luck - #185,771

He'd decided to try his SUV in a little bit of cross-country travel, had great fun zooming over the badlands and through the sand, got lost, hit a big rock, and then he couldn't get it started again. There were no cell phone towers anywhere near, so his cell phone was useless. He had no family, his parents had died a few years before in an auto accident, and his few friends had no idea he was out here.

...

iPhone Activation Code

#51,865 - #51,867

This pastie removed at the request of Apple, Inc.

Love - #57,567

Dear Tom, We are completely impossible to define. I say this out of complete inadequacy in searching for a term that fits. There is no term, there is no verb, there is no way to describe it because even the retelling of the events leading up to...us, I guess, is biased, details scrubbed over and conversations lost in the abyss. I could use adjectives, but those fall short. All parts of speech fail when I try to explain to myself the way this works. The way I see it.

...

#100,000

This is the final pastie. You can now go outside and play.
